

# Sustainability In Action

As part of our never-ending journey to promote environmentally responsible business practices, Taylor Print & Service Solutions discloses information regarding carbon and climate change risk to CDP. Long considered to be the gold standard of environmental reporting, the CDP's annual benchmarking analyses enable us to identify low-carbon opportunities, thereby fulfilling one of our most cherished corporate values: *we believe there is always a better way.*

## CDP Score Report – Climate Change

The following information was provided by CDP and evaluates our performance during 2021 in regard to key climate change factors as compared to peer companies in our activity group:

**Region:** North America  
**Country:** United States of America

**Questionnaire:** Paper & Forestry  
**Activity Group:** Paper Products & Packaging

CDP SCORE

**B**

### We received a score of B which is:

- Higher than the global average of B-
- Higher than the North American regional average of C
- Same as the Paper Products & Packaging activity group average of B

### We placed in the “Management” band on CDP’s comparison scale:

- Leadership (A to A-):** Implementing current best practices
- Management (B to B-):** Taking coordinated action on climate issues
- Awareness (C to C-):** Knowledge of impacts on, and of, climate issues
- Disclosure (D to D-):** Transparent about climate issues
