TAYLOR + DYMO®

DYMO® LabelWriter® 450 and 5 Series

Custom labels, stock labels and high-quality label printers from one source

Taylor is proud to be the exclusive provider of custom labels for DYMO® LabelWriter® series printers. This partnership enables Taylor to provide end-to-end support for the millions of LabelWriter® 450 and 5 series now in use across North America.

Custom LabelWriter® Labels

Enjoy the speed and crystal-clear print quality of DYMO® LabelWriter® 450 and 5 series printers — now with labels in custom designs, sizes, colors, finishes and packaging options. All of Taylor's custom label constructions have passed rigorous joint testing to ensure reliable performance.

Custom Branding
Showcase your logo, colors and brand messaging on every label.

Custom Sizes
Choose from a variety of sizes to ensure a perfect fit for your business.

Material Flexibility
Select the face material, topcoats, adhesive and liner that meet your needs.

Digital Revision
Deactivate a label SKU, ensuring only the latest approved design is in use.

Stock LabelWriter® Labels

Every type of stock label made for the DYMO® LabelWriter® 450 and 5 series can also be sourced from Taylor including:

Address Labels | Name Badges | Price Tags
Shipping Labels | And More

Label Printers

Taylor is an approved provider of DYMO® LabelWriter® 5 series printers.

- DYMO®'s patented Automatic Label Recognition technology fine-tunes the alignment of DYMO®-branded labels for jam-free printing.

- Better label alignment reduces misprints and label waste by 65%.

- Label size, type and remaining quantity are automatically displayed.

- Printing is fast, accurate and optimized for enhanced results including clear barcodes, crisp QR codes, vivid images and captivating text.

- The direct-thermal print process means you'll never have to buy ink or toner again.

90

Up to 90 Labels Per Minute

300

**More Than 300 DPI Resolution**

Software

Best of all, LabelWriter® printers are compatible with DYMO®'s entire print management software suite.

DYMO® Connect for Desktop

- Counts labels left on label roll — so you don't run out mid-print.

- Print in bulk from Microsoft™ Excel™, Outlook™ and Google™ Contacts.

- Create QR codes, barcodes, address labels and more.

- Advanced text handling including rotation, curved text and shrink-to-fit.

- Print intelligent mail barcodes for faster delivery.

DYMO® Software Development Kits

- Integrated printer control for paper type, print resolution, margins, etc.
